

Drainage System Maintenance

Help improve water quality by minimizing pollutants such as trash, chemicals, and eroded soil from entering the storm drain. Prior to an anticipated rain event, please inspect your area and review these guidelines.

Inspect and clean storm drains and channels of accumulated sediment, trash, leaf debris, and vegetation overgrowth. Dispose collected waste in a trash dumpster to prevent the waste from entering the storm drain.

Report hazardous materials spills, dumping, or non-storm water discharge into the storm drain system:
Call Environmental Health & Safety (949) 824-6200

Report water leaks or irrigation issues:
Call Facilities Management (949) 824-5444

Contact **EH&S** at (949) 824-6200 or safety@uci.edu for questions.
