

Who Do I Call? --
Environmental Health Safety or Facilities Management

ISSUE	EH&S	FACILITIES	Comments
Air stack emissions issues	X		
Asbestos	X		
Animals (dead or alive)		X	
Biomedical waste	X		
Blood spill (trauma scene)	X		Triaged by EHS to contractor
Building evacuation maps		X	
Circuit breaker trip and/or electrical fuse blown		X	
Confined space entry and signage	X		
Construction projects - health impacts	X		
Earthquake preparation	X		
Electrical equipment repair or replacement		X	
Electrical safety/Lock out tag out and signage	X		
Emergency eyewash/showers		X	
Ergonomics	X		
Fire extinguisher repair or replacement		X	
Hazardous waste disposal	X		
Insects/Pests/Rodents & dead animals		X	
Keys/Locks		X	
Lab moves planning	X		
Lead	X		
Lighting:			
*Light bulb replacement		X	
*Light surveys (lighting levels)	X		
Microbial or mold growth	X		
Odors (gas, burning, unidentified odors)		X	Triaged by FM to EHS
Recycling:			
* Chemicals	X		
* Regular trash		X	
* Universal waste (batteries, fluorescent lamps)	X		
* Employee accident/injury reporting			Managed by Workers' Compensation
* Near miss	X		
* Employee hazardous/unsafe condition	X		
* Broken or faulty equipment		X	
treads, floorboards or handrails	X		
* Standing water/insect control		X	
Sharps disposal locations	X		
Ventilation:			
* Ventilation surveys (fume hoods)	X		
* Ventilation repair (HVAC, fume hoods)		X	
Water:			
* Leaks and flooding in buildings (including fire sprinkler breaks)		X	Triaged by FM to EHS
* Water intrusion events discharging into storm sewer drains	X		Triaged by EHS to FM
* Stormwater runoff - Coordinate the replacement of existing sand bags	X
